# ABOUT US

## NOT ALL HOT TUBS ARE CREATED EQUALLY!

At **LT COUNTRYSIDE SERVICES** we only supply high quality Spas and Hot Tubs.

Our products are all internationally certified and are manufactured using the best materials and the highest production standards in the industry.

You can be confident that our hot tubs are backed with over 20 years of design, production and manufacturing expertise ensuring that each product is going to be the best it can possibly be and going to last.

### HOW DO WE DO THIS?

#### BUILD QUALITY

We only supply spas made from USA Aristech acrylic. This can effectively reduce the chance of shell blistering. Cheaper products are a false economy

#### WATER SAFETY & QUALITY

All our hot tubs are equipped with a 24 hours circulation filtering and ozone system to keep the water safe and clean as standard. High-quality clean water allows you to enjoy bathing without any worries.

#### INSULATION

There's nothing worse than losing heat! Our insulation foam for tub body and skirt coupled with the warm cover with integrated heat-locking technology can fully lock the heat in the hot tub water. We've also added a **FREE FRP** base to insulate the bottom of your tub. This helps saves energy and so your wallet will be grateful too!

**FREE FRP BASE**

100%  
guarantee of  
safety, quality,  
& reliability.

# AS EASY AS 1,2,3

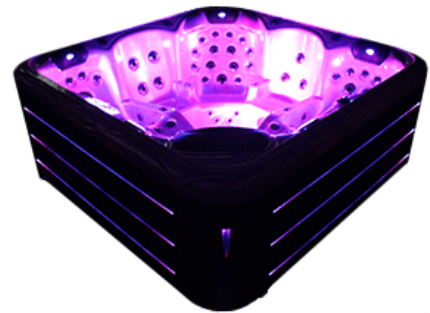

## CHOOSE YOUR SPA

Browse our catalogue and choose your spa based on the features offered and key elements such as dimensions, the amount of people that can use it and how many jets it has. LT CountrySide Services can help you with any queries you may have. Just ask one of our friendly sales team.

## CUSTOMISE YOUR SPA

Choose the colour of the acrylic shell from our 13 options. Pair that with a choice of 5 colours for the skirt (cabinet) that it sits in. Pick your FREE Nordic insulation cover from 8 different designs. Don't forget to add any of our high quality optional extras such as steps, speakers, additional LEDs, covers, handrails etc.

## INSTALL YOUR SPA

Check our delivery information sheet for details on how to prepare for installation. **LT CountrySide Services** can offer everything from a kerbside delivery to full installation. We can prepare the site and also offer full landscape gardening services to ensure that your new hot tub is installed to the highest standards and looks stunning.

# PRE DELIVERY INFORMATION

## **Kerbside delivery**

We offer **FREE** kerbside delivery within 100 miles of our HQ in Cheltenham, Gloucestershire. For further distances please speak to a sales staff member.

## **Installation and sanitation**

Our team will position your spa, install into your power supply, fill with water and sanitise using our approved chemicals for just £299.

## **Access**

Ensure you check the dimensions of your spa including extra space for packaging. There must be access with ample space to bring your spa through for installation. If you are unsure speak to a member of the sales team.

## **Upgrading your spa**

If you already have a previously bought spa in position you must have it moved before we can install your new spa.

## **Lifting equipment / crane**

It is the customers responsibility to organise any equipment / labour needed regarding lifting a spa. We will not accept any responsibility regarding damage during this process.

## **Location of the spa**

- Available indoor or outdoor
- Level Concrete or slabbed surfaces
- Plenty of access to electronics and front of the spa for maintenance
- Water drain away from electrical system

## **If you don't have a base for your spa**

This is very important to ensure your spa remains structurally sound. LT Countryside services offer a slab or concrete base at a reduced price with all spa purchases. Please speak to a member of the sales team for information.

## **We do not advise Decking as a base**

Before having your spa installed onto decking ensure that you check the decking can support the weight. Should you wish to build a decking base around your spa ensure there is plenty of space to stop vibrations occurring. Always install your spa before building your decking around it and remember to leave access for any potential maintenance.

## **Electrical supply**

You must have this in place before we come to install your spa. This must be carried out and signed off by a certified electrician. We will provide you with all the information your electrician will need to prepare your electrical supply. Additionally, LT Countryside Services, offer a reduced rate with all spa purchases to install your electrical system before your spa arrives. Please speak to a member of our sales team for more information.
